WORK EXPERIENCE

Project Manager

October 2025 – Present

Innovate Solution

- Coordinate the planning and delivery of software/technology projects from initiation through completion, working with a cross-functional team of 10+ members across development, design, and QA.
- Manage project scope, schedules, and resources to keep deliverables on track and aligned with business objectives.
- Lead coordination between developers, designers, and stakeholders to ensure clear requirements, smooth handoffs, and timely issue resolution.
- Monitor project progress, risks, and quality standards throughout the development lifecycle, flagging blockers early and proposing mitigation steps.

- Track tasks, sprints, and project workflows using Jira and Bordio to maintain visibility across the team and keep deliverables on schedule.
- Prepare structured project status reports and communicate progress, risks, and outcomes to management on a regular basis.

Assistant Teacher *Private Tuition Center*

Subjects: Mathematics, Physics, Biology, Chemistry, ICT

- Planned and delivered structured lesson plans across five subjects, managing competing schedules and individual student timelines — early experience in planning, prioritization, and time management later applied to project coordination work.

KEY PROJECT

Human Activity Recognition using Artificial Intelligence *Jan 2023 – Jan 2024*

- Led the end-to-end planning and execution of a mobile application that uses AI to classify human activities (e.g., running, walking, sitting) in real time.
- Managed the project independently from concept through delivery, applying core PM practices — scope definition, milestone planning, and testing — within an academic setting.
